

Globe Special Steels Pvt Ltd

QUALITY you can rely on.

WHY ?

- Unique process applications
- Criticality
- Process oriented line
- Provide strength to steel
- Profiles - Squares, Triangles, Trapezium
- Applications
 - Wind Energy
 - Earth Moving Equipments
 - Transmissions
 - Automotive
 - Oil and gas
 - General engineering
 - Special Fasteners

Location

- Well Connected industrial hub
- 4.48 Acre Property
- 60000 Sqft manufacturing area
- Detroit of India
- Premium Address (Behind Enfield)
- New International Airport

Peeling and Grinding Line

Normalising Line

```
graph LR; A[Normalising] --> B[Machine Straightening]; B --> C[Shot Blasting]; C --> D[Cut to length]; D --> E[FG Inspection]; E --> F[Despatch area];
```

Normalising → Machine Straightening → Shot Blasting → Cut to length → FG Inspection → Despatch area

Special Steel Line

Machineries

- Multi roll bar Straightening machine for hot rolled bars upto 120mm - 1 No.
- Bar Peeling machine 100 mm - 1 No
- Bar Straightening machine for bright bars upto 120mm - 1 No.
- Centreless grinding machine upto 120mm- 5 nos.
- Magnetic particle testing machine upto 100mm - 2 nos.
- Circular saw cutting machine upto 100mm - 1no.
- Heat treatment furnace for long bars (20T batch capacity) - 1no.
- Heat Treatment furnace for wire rods (3T capacity) - 1no
- Induction hardening and tempering machine for long bars upto 90mm- 3 nos.
- Full fledged metallurgical lab - 1 no.
- Eddy current testing - 1 no.
- Hydraulic press for heavy section straightening - 1 no.

Other Infrastructure

- Weigh bridge - 1no.
- Electrically operated over head crane - 3 nos.
- HT power connection - 1500 KW.
- STP plant- 1 no.
- Water treatment plant - 1 no.
- Bore well - 1no.
- Workers canteen - 2000 sqft.
- Security cabin - 50 sqft.

THANK YOU
